

GLR

Rack systems

Stable steel construction. Glazing bead rack for horizontal storage of aluminium and plastic glazing beads. Ideal for storing and sorting glazing beads, e.g. before the glazing bead saw. Seven support arms are evenly spaced along the rack. Four centre supports are adjustable. Nine support arms are freely adjustable, giving variable support arm spacing. Support arms are rubber coated. Well-organised storage provides quick access.

Support arms

Support arms are rubber coated. Centre upright is adjustable. Support arms are freely adjustable, giving variable support arm spacing

Hinged foot

Working height can be adjusted by means of adjustable feet
